SEASONAL AVAILABILITY

Seasonal availability varies from year to year – this document is meant as a guide only, and is not a comprehensive or definite list.

Unfortunately Queenstown does not have its own commercial flower markets and we must source the majority of our flowers from markets in Auckland and Dunedin. Due to this, a certain amount of flexibility when ordering your wedding day flowers is very much appreciated. We are lucky to also have longstanding relationships with many local gardens and growers, which offer us a variety of beautiful, locally sourced, wild flowers and foliages. The selection varies month to month and is subject to availability.

Whilst we endeavor to source your exact floral varieties, in some instances we are unable to do so. In this case, we will use our best judgment to find a suitable substitution and will inform you accordingly.
